Before the inception of the Peter Obi Administration, most Ministries and Agencies of Government operated in rented apartments. On assumption of office, Governor Peter Obi promised to build a brand new Secretariat Complex to house Government Ministries, Agencies and Parastatals. The Governor has lived up to every bit of this promise.

Today the two-phase Ultra-Modern State Secretariat Complex constructed by Governor Peter Obi is a thing of pride to Anambra State Civil Servants and will remain one of the lasting legacies of his administration.

FIGHTING CRIME IN PARTNERSHIP WITH SECURITY AGENCIES

Anambra State today has one of the lowest crime rates in Nigeria. This is because Governor Peter Obi is relentless in his resolve to redeem the state and her citizens from criminal activities. To achieve this, Governor Peter Obi partners with the various security agencies in the state.

Since the inception of his administration, Governor Obi has donated over **600** Patrol Vehicles to various Security Agencies such as The Police, The Army, Civil Defence, Customs, Immigration, NDLEA, Road Safety, Prisons, SSS, Navy, and Community Vigilante organizations in the state.

Apart from Patrol Vehicles, Governor Obi equally provided Armoured Personnel Carriers (APC), Communication Gadgets, Repeater and Linker Stations, Base Stations, Mobile Vehicular Radios, Walkie-Talkies, Generators, Logistics and financial support to various Security Agencies in the state, all in an effort to boost their operations and efficiency.

This feat places Anambra State as the number one state in Nigeria as far as partnership with, and support to, security agencies are concerned.

ANIDS ACHIEVEMENTS IN EDUCATION

Education is the bedrock of development and modern civilization. This perhaps explains why Governor Peter Obi has put a lot of effort, energy and resources into resuscitating and re-positioning education in Anambra State.

Prior to his administration, most public schools in Anambra State had dilapidated and collapsed. Modern school technology, equipment and facilities were non-existent, while pupils and students were studying under pitiable conditions.

Today, the story has changed. Anambra State now boasts of quality education with standard modern educational facilities. To achieve this, Gov. Peter Obi took the bull by the horns by providing unprecedented support to schools at all levels in Anambra State. He has provided teaching and learning aids. He has provided computers and introduced information communication technology (ICT) to schools. Gov. Obi has built numerous new classroom blocks, renovated dilapidated structures and provided buses to schools.

HIGHLIGHTS

- Distribution of over 35,000 Laptops/Desktop Computers to about 450 schools; the first time in the history of Anambra State.
- Equipping of over 450 schools with Microsoft Academy, Internet Connectivity and power Generators.
- Building, rehabilitation and equipping of over 200 schools with functional Science Laboratories.
- Distribution of over 750 buses to schools.
- Provision of boreholes to over 300 schools.
- Construction and renovation of over 1500 classroom blocks with many more under construction.
- Erection of over 40 new buildings at Chukwuemeka Odumegwu-Ojukwu University, Uli and Igbariam Campuses and Nwafor Orizu College of Education, Nsugbe.

Tertiary institutions in Anambra State have witnessed massive infrastructural development under the Gov. Peter Obi Administration. Over 40 new buildings have been erected at Chukwuemeka Odumegwu-Ojukwu University (Uli and Igbariam campuses); Nwafor Orizu College of Education, Nsugbe and College of Agriculture, Mgbakwu. Access roads have been constructed to facilitate easy movement to and within the campuses in all state-owned tertiary institutions. Gov. Obi's change of the name of the state university from Anambra State University to Chukwuemeka Odumegwu-Ojukwu University in 2013 elicited widespread commendation.

PROVISION OF MODERN SCHOOL FACILITIES.

Before Gov. Peter Obi Administration, not one single public school in the state had a properly equipped science laboratory. The scenario was no better in the area of computer literacy. In this age of information Technology, computers were virtually unheard of in public schools.

Today, the situation has changed dramatically in terms of ICT, science laboratories, water supply etc. Over 450 schools have benefitted from the laboratory rehabilitation and school equipment scheme of the Government. More than 450 schools have been supplied with computer sets. Microsoft Academies have been established in more than 450 schools.

Over 750 buses have been provided for secondary schools with some receiving more than one - the first time ever in the history of the state. Technical colleges have been renovated and fully equipped; electricity generating sets and water boreholes have also been provided for schools across the state.

Gov. Obi presenting a cheque of ₦2.650 billion to HP and Galaxy Backbone for provision of 25,000 computers and provision of Internet Facilities in Anambra schools.

ANIDS ACHIEVEMENTS IN HEALTH

Never in the history of Anambra State has any Governor paid attention to health care delivery like Governor Peter Obi.

Beyond initiating the construction, completion and equipping of an ultra modern teaching hospital for the State University at Awka, rehabilitating and resuscitating of the General Hospitals in the State, and building of Primary Health Centres in most communities in Anambra State, Gov. Obi embarked on an unprecedented partnership with the Church through a well articulated special intervention scheme for most Missionary Hospitals in Anambra State.

HIGHLIGHTS:

- Building and equipping of an Ultra Morden Teaching Hospital and College of Medicine for Chukwuemeka Odumegwu-Ojukwu University, and getting both accredited.
- Rehabilitation of 15 General Hospitals in the 3 Senatorial Zones of the state.
- Building of 10 Maternity and Child Care Centres in remote areas of the state (On-going).
- Building of over 120 Primary Health Centres and Cottage Hospitals across various communities in Anambra State.
- Purchase and handover of over 60 Ambulances to some Hospitals in the State
- Eradication of Poliomyelitis. Anambra State won the first prize in South-East in the Bill and Melinda Gates Foundation for polio immunization.
- Building of structures and provision of equipment for Missionary Hospitals through a special Missionary Intervention Scheme for hospitals owned by the Church.

The Gov. Obi Administration is building ten maternity projects in ten rural communities of Anambra State. The project which will cost N30 million per one is partly funded by the N150 million prize money Anambra State received by coming first in the Bill and Melinda Gates Foundation award as the best State in the South-East in immunisation. Anambra State Government is providing additional N150 million to execute the project.

The benefitting communities are: Ugwuagba, Umuchu, Awba-Ofemili, Urum, Umueje,Umudioka, Isseke, Azigbo and Umunze.

ANIDS ACHIEVEMENTS IN ROAD INFRASTRUCTURE.

Governor Peter Obi has built over 900km of quality roads spanning through the 3 Senatorial zones in Anambra State.

Amazingly, some of these roads were constructed in very difficult and previously inaccessible terrains with the noble aim of linking communities in Anambra State.

The Governor Peter Obi Administration embarked on supportive infrastructure shortly after he settled into office. To date, over 28 bridges linking previously unaccessible towns and villages have been constructed or are still under construction with over 50 culverts around the state. All of these have great economic importance.

Under the ANIDS policy trust of the Governor Peter Obi administration, public utilities received priority attention and support like never before. Over 500 transformers were distributed to various communities, agencies and groups in Anambra State.

The Governor equally embarked on over 30 Rural Electrification projects with 21 of them already completed. Solar Energy street lights were installed in many Communities.

Over 50 Urban and Rural Water Schemes have been commissioned by the Peter Obi Administration with many more ongoing. The administration to date has sunk over 3,500 boreholes for communities, schools, churches, agencies and several organisations to boost water sanitation, health and general standard of living.

The Gov. Peter Obi Administration has not only encouraged Agriculture by constructing roads that run through rural agrarian communities, he has also built a functional College of Agriculture at Mgbakwu where both students and local farmers are exposed to modern trends in Agriculture.

In addition, Gov. Obi has provided loans to farmers to improve their yields. In 2006 for instance, the Governor provided ₦150 million loan to farmers while in 2011, he provided ₦1billion. In 2013, he also provided ₦1.2 billion to farmers in Anambra State.

Gov. Obi has facilitated the establishment of MASDEVAN Farm at Urum which is modelled after Songhai Farms International. MASDEVAN Farm has received both financial support and equipment like brand new farm tractors from the state government.

Gov. Obi has equally attracted Rainbow Chicken, a reputable South African investor in poultry farming, to Nkwele-Ezunaka Poultry Farm. Gov. Obi has ensured a functional irrigation scheme at Ogboji Rice Farm.

The signing of MOU between Anambra State Government and the Wicklow Group for the running of the Omor Rice Mill.

Gov. Peter Obi succeeded in persuading the Federal Government to hand over the Giant Omor Rice Mill to Anambra State Government and further went into strategic partnership with Wicklow group to resuscitate and manage the Omor Rice Mill (The Rice Mill when fully operational has the capacity to produce rice that will feed the entire country).

POVERTY ALLEVIATION PROGRAMMES: DOING VERY WELL IN FADAMA III.

To achieve the MDGs on poverty reduction, the Governor Peter Obi Administration entered into several strategic partnerships such as the Anambra/Access Bank N1billion Agriculture partnership agreement as well as other multi million naira Agriculture facilities and funding of the FADAMA project. The state adopted four key vehicles to deliver on its poverty alleviation programme.

They are:

1. Anambra State Poverty Eradication Programme (ASPEP)
2. NAPEP (MP-MF) Loan Scheme.
3. Women in ANIDS Micro Finance Scheme.
4. Women Fund for Economic Empowerment (WOFEE).

The poverty alleviation policies and intervention programmes of the administration were designed using Poverty Mapping Strategy (PMS) through which the government identified the poverty level of all the Local Government Areas in the State. The strategy is reflected in the number of empowerment projects and programme across the state today with the poorest areas getting more support.

Under Governor Peter Obi, Anambra State initiated a dedicated N2 billion intervention fund with Bank of Industry for lending to micro, small and medium enterprises, and cooperative societies in Anambra State. Today the scheme has helped in resuscitating a lot of dying micro and small medium enterprises as well as creating new ones. The result is the emergence of a vibrant middle class in the state.

Before the Peter Obi administration, sports in Anambra State was almost dying as a result of lack of basic sports infrastructure and lack of attention to the sector from previous administrations. Today, the story has changed. The sector has been resuscitated by Governor Peter Obi through provision of sports infrastructural facilities such as stadia, sporting equipment etc, the state participation in sporting competitions and festivals, and resuscitation of sporting grounds and arenas.
